EDUCATION

University of Maryland, College Park <i>B.S. Computer Science, Minors in Robotics and Entrepreneurship, Honors College</i> Relevant Coursework: Algorithms, Linear Algebra, Statistics, Computer Systems, Robotics Programming, Discrete Structures, Organization of Programming Languages, Introduction to Robotics, Computer Vision, Data Science	May 2028 <i>GPA: 3.756/4.00</i>
---	---

EXPERIENCE

Software Engineering Intern <i>The Aerospace Corporation - Incoming 2026 Summer</i>	May 2026 – Aug. 2026 <i>Chantilly, VA</i>
---	---

Robotics Algorithms & Autonomous Systems Lab (RAAS) <i>Undergraduate Researcher</i> - Adapted the ITPS framework (MIT CSAIL) to a UR3 robotic arm block-stacking task in MuJoCo, enabling human-guided trajectory steering at inference time without retraining - Implemented and validated all 4 ITPS steering methods in 2D simulation, extending support to CPU and CUDA execution (Post-Hoc, Diffusion, Sampling, Initialization)	Oct. 2025 – Present <i>College Park, MD</i>
--	---

Xprotege Institute of Technology and Management <i>Software Engineering Intern</i> - Developed a production-grade RAG system using LlamaIndex, Qdrant, and GPT-4 API to automate RFP analysis, increasing throughput and reducing evaluation time by 75% while maintaining 92% semantic retrieval accuracy - Optimized embedding models and retrieval pipelines through adaptive chunk sizing and reranking, enhancing context relevance by 35% across 200+ page technical documents - Architected a scalable prompt-engineering framework integrating proprietary scoring logic into LLM outputs, improving decision reliability and boosting bid/no-bid classification accuracy by 40%	Sep. 2025 – Dec. 2025 <i>Ellicott City, MD</i>
--	--

Craving Hour Halal <i>Software Engineering Intern</i> - Architected a full-stack web platform using React, Node.js, PostgreSQL on AWS (RDS, Lambda, Cloudfront), building the database schema from scratch to boost operational efficiency by 43% for 150+ daily customers - Developed REST API endpoints handling user interactions and an S3-backed media pipeline, reducing content load overhead by 40% (Website Link) - Engineered an /admin endpoint suite enabling full CRUD control over all website content, empowering non-technical staff to manage menus and media without code changes, reducing update turnaround by 30%	May 2025 – Sep. 2025 <i>College Park, MD</i>
---	--

PROJECTS

UR3e Robotic Arm Manipulation — Python, ROS 2, Ubuntu, OpenCV Designed a ROS 2 vision-guided control system for a UR3e robotic arm using pose estimation and inverse kinematics to stack objects with 98% accuracy, demonstrating real-time manipulation for industrial automation	
Kato Apartment Finder — Next.js, Vercel, Supabase, Mapbox, PostgreSQL, Git, Firecrawl — Website Link Launched Kato, an off-campus apartment finder enabling data-driven housing decisions; secured \$4,000 in awarded funding and attracted 11,000+ visits by scraping real-time data from 18 apartments into a unified UI	

ACTIVITIES AND LEADERSHIP

Project Lift — Co-Founder, President - Co-founded a student tech consulting club at UMD, delivered customized tools across 5+ small business clients and generating \$50K+ in digital transformation value - Mentored 35+ interdisciplinary members in full-stack development and client management, oversaw end-to-end project delivery from requirements gathering to deployment	May 2025 – Present
Alpha Kappa Psi Business Fraternity — Vice President of Professional Spearheaded professional development initiatives and corporate outreach for 90+ members, fostered relationships with Fortune 500 companies to drive recruitment pipelines and career opportunities	Apr. 2025 – Present

TECHNICAL SKILLS

Languages: Java, Python, C, C++, Rust, JavaScript, TypeScript, SQL, MATLAB
Frameworks, APIs & Databases: React, React Native, Node.js, FastAPI, ROS 2, PostgreSQL, Supabase, AWS (S3, CloudFront, RDS, Lambda), Linux/Unix
Libraries & Tools: PyTorch, TensorFlow, NumPy, Pandas, OpenCV, LlamaIndex, Qdrant, Git/GitHub, CAD (Onshape), PyGame, Gazebo, Docker, CI/CD (Github Actions)
